NUTRITION/FARM TO SCHOOL

Coordinate school nutrition services with local service providers
Implement curriculum to support the science of nutrition and healthy eating
Offer parent engagement opportunities that teach the science of nutrition and the role of a healthy diet in student academic performance
School garden supplies and teaching materials
Food safety training
Supplies/materials for classroom food test tasting, i.e., ethnic, cultural, healthy, regionally/locally grown, etc.
PD/PL for teachers to integrate the science of nutrition and healthy eating into content area instruction
Offering parent engagement opportunities that teach the science of nutrition and the role of a healthy diet in student academic performance
Expedite evaluations for various educational services, such as eligibility for school meals programs
Provide life skills instruction to students with disabilities on the science of nutrition, meal planning and preparation, and the role of diet in a healthy lifestyle
Professional development for teachers and school leaders on the impact of nutrition in child and brain development
Provide home visits with parents to offer nutrition trainings that promote healthy eating and other local nutrition-related resources
Ensure coordination of school nutrition services to improve the likelihood students will complete their education
